Department Of Housing, Buildings, and Construction Manufactured Housing Facts Sheet

1. Inspections conducted for Manufactured Homes and Recreational Vehicles are no longer conducted through the State Fire Marshal's Office. The Manufactured Housing Section within the Division of Building Code Enforcement conducts these inspections.
2. The Manufactured Housing Section issues two (2) types of seals when conducting inspections.
 - A. **B1** - This is a seal issued to a unit that has satisfactorily passed an inspection and is deemed safe for Human Occupancy.
 - B. **B2** - This is a seal issued to a unit that has not passed an inspection and is deemed not safe for human occupancy. Manufactured home units shall only be sold for the purpose of use as a storage or utility building.
3. The inspection fee for a **manufactured home** is \$75.00 and the seal fee is \$25.00 for a **total of \$100.00 due at the time of the inspection.**
4. The inspection fee for a **recreational vehicle** is \$35.00 and the seal fee is \$25.00 for a **total of \$60.00 due at the time of the inspection.**
5. Acceptable forms of payment are money orders, checks, and debit/credit cards. Checks and money orders shall be made payable to the Kentucky State Treasurer. **Cash will not be accepted as a form of payment for inspections.**
6. Scenarios that would require a B-seal inspection from the Manufactured Housing Section are as follow per KRS 227.600 & 227.605:
 - A. **A recreational vehicle or manufactured home that is being titled in Kentucky for the first time from another state. A B-seal inspection is not required on new recreational vehicle units that has never been titled and has a certificate of origin.**

B. If proof of a B-seal inspection cannot be provided and verified at the time of the requested title transfer.

7. Virtual inspections are possible using digital apps such as Skype, Google duo, and face time. **Note: Virtual inspections are granted on an individual basis. Not all units will be candidates for this type of inspection.**

8. KRS 227.550 specifically defines recreational vehicle into five classes: travel trailer, camping trailer, truck camper, park vehicle and motor home. These classes include recreational vehicles that are commonly referred to as pop-up campers and slide in campers. See definitions in highlighted sections below.

9. The Manufactured Housing Section will not conduct inspections on homemade recreational vehicles or conversions. Examples include but are not limited to: buses, cargo vehicles, or stock trailers that have been converted to a recreational vehicle and were not constructed to industry or referenced standards.

10. The Manufactured Housing Section does not conduct courtesy inspections for the purpose of providing consumers with a list of items that the unit being inspected will need to pass. These items can be discussed at the time the inspection is being scheduled and it is the owner's discretion if they need to postpone inspection until they feel the unit will meet with requirements to pass inspection.

11. Questions and concerns can be directed to:
